Our Ref: iGT UNC Code Objectives

Dear Steve,

On 17 April, in response to a letter from the Connection and Use of System Code (CUSC) Panel Chairman, Ofgem issued a letter providing an interpretation of the CUSC objectives in relation to an amendment proposal that had raised a series of environmental issues. I attach both the original letter and our response to it. Given the similarities between the CUSC and the iGT UNC objectives Ofgem considers it appropriate to notify the iGT UNC Panel of this issue, and suggest that the iGT UNC Panel monitors the progress of this issue via the industry cross-working mechanisms it has developed.

If you have any questions, please contact me on the above number.

Yours sincerely,

A handwritten signature in black ink, appearing to read "D. Edward", written in a cursive style.
