

iGT UNC / iGT INC Consultation Response

Date	25/10/07
Reference	iGT008DMR
Title	Ancillary Documents
Respondee	IPL / QPL
Position on the Modification	Reject Modification

Facilitation of the relevant objectives

Independent Pipelines Limited and Quadrant Pipeline Limited reject this proposal on the grounds that it has not been made clear what operational procedures or documents will form part of the document. IPL / QPL cannot support this proposal on the grounds that it seeks to implement a mechanism for change without clear indication of scope, content or limits. There are already mechanisms in place within the iGT UNC structure to ensure efficient consultation. Furthermore the iGT UNC Review / Development Group route already allows for any such discussions to take place and for modifications to be raised.

IPL / QPL are not in support of the creation of another mechanism for change having developed the iGT UNC, and when the iGT UNC modification rules are still in development. IPL / QPL does not feel that this proposal would better facilitate efficiency in the implementation and administration of the iGT UNC as it would require iGTs to commit additional time and resources when the existing mechanism, created in agreement with the industry, provides sufficient opportunity.

Additional Information and Comments
