

iGT UNC / iGT INC Consultation Response

Date	24/03/2008
Reference	IPL QPL 037 Consultation
Title	Invoice Credits
Respondee	Lorraine McGregor, ScottishPower Energy Management Limited (SPEML)
Position on the Modification	Support Modification
<p>Facilitation of the relevant objectives</p> <p>SPEML agree with the Proposer that this Modification will help facilitate the relevant objectives by ensuring transparency in invoice documentation and will result in better management of the network code, since it will align IPL/QPL's processes with all other Pipeline Operators.</p>	
<p>Additional Information and Comments</p> <p>At present since IPL/QPL may combine credit from one invoice into another separate and distinct invoice it makes invoice query management and reconciliation overly complicated and requires manual effort to match the credit to the related invoice. As stated by the Proposer this process can result in unnecessary queries and delays. This is inefficient and SPEML therefore support this Modification Proposal. We believe that any credit invoice should match the original invoice and not simply be included with in another invoice batch.</p>
